

ROBERT A. WINTER PARK

PARK HISTORY

The site was obtained in 1983. The property was a partial (one-half) donation from the Winter Brothers Materials Company with a matching grant from the Federal government's Land and Water Conservation Act. In 1991, a river-accessible picnic site was established to service boaters on the Meramec River. However, the flood of 1993 took out the site and it was never reestablished.

Robert Winter Park is included in the Meramec River Greenway.
