

# LAUMEIER SCULPTURE PARK

Laumeier Sculpture Park is an open-air museum. It features over 70 sculptures situated along walking trails, wooded areas and in open fields. You're invited to experience the sculptures by seeing, touching and sometimes even entering them, but please DO NOT climb on them.

#1. Start by the front of the Visitor's Center and find *Ricardo Cat*. You'll find a place to sit down

inside Ricardo. There's a tile with a picture of a marine animal on the seat.

What is the animal? \_\_\_\_\_

#2. Now head behind the Visitor's Center and head towards the large open field. On your way, you should see a 24-foot tall *Man with Briefcase*. What number is stamped on the *Man with Briefcase*?

\_\_\_\_\_

As you approach the big open field, you'll see a giant red tube sculpture called *The Way*. How many tubes make up *The Way*?

\_\_\_\_\_

#3. Continue on the trail to a round concrete "pool" on the left. Walk over to it and look inside. What is on the bottom of the "pool"? \_\_\_\_\_ Look for the pillar that tells about the sculpture. What is it called? \_\_\_\_\_

#4. Return to the asphalt trail and follow it all the way through the west side parking lot to the Children's Sculpture Garden. Find *Ball? Ball! Wall? Wall!* These steel marine buoys stretch into a 300-foot wall. How many buoys are there? \_\_\_\_\_

#5. Next, find the Charles Moss Education (Art Camp) Shelter. From there, follow the gravel trail a short way until you get to a large bright blue sculpture. How many wheels does it have? \_\_\_\_\_ What is the name of the sculpture?

\_\_\_\_\_

From here, retrace your steps or continue along the trail to discover many more cool sculptures!
