ST. LOUIS COUNTY REVISED ORDINANCES (SLCRO)
TITLE XI
PUBLIC WORKS AND BUILDING REGULATIONS
CHAPTER 1100
CODE ENFORCEMENT FEE SCHEDULES

1100.010 Citation of Chapter. This Chapter shall be known and may be cited as "Code Enforcement Fee Schedules".

1100.020 Scope. The provision of this chapter shall be in effect in all parts of St. Louis County outside incorporated cities, and within those municipalities with which the Code Official has contracted to provide code enforcement services.

1100.030 Payment of Fees. The total estimated fee for the activity to be performed by the Department of Public Works shall be paid in advance. Payments shall be made at the Department of Public Works in cash or by check payable to "Treasurer, St. Louis County."

1100.040 Construction Cost Estimates. The Code Official is authorized to estimate the total cost of construction of a structure, building or project, by multiplying the total floor area of the structure in square feet by an appropriate square foot cost rate. Structures or projects for which it is impractical to estimate the total construction cost by said square foot cost method shall be estimated by applying current, commonly accepted unit cost figures to the various components in a commonly accepted manner. In lieu of determining the total cost of construction as outlined above, the Code Official may accept a bona fide contract or any affidavit of the owner of the building structure or project, in which the total cost of construction, including site improvements related to the permit, is verified by applicant and owner.

1100.050 Commercial, Industrial and Multiple-Family Residential

Construction Permit Fees. - The fee for a building permit and inspection of commercial, industrial and multiple-family residential construction shall be determined by applying fee rates in Table 1100.050 to the total estimated cost of construction, as determined heretofore. Permit processing, plan review, and inspection charges are included in the fee rate.

*Total fee charged shall not be less than the required minimum total fee.

TABLE 1100.050 Inclusion: A building permit and inspection fee for commercial, industrial, or multiple-family construction, with a total estimated cost of construction in excess of fifty million dollars (\$50,000,000.00) shall be computed at the rate of three dollars and ninety-three cents (\$3.93) per thousand dollars of the total estimated cost of construction.

The Code Official is authorized to accept a bona fide cost amount of subcontract for each specialized trade or discipline of construction.

The minimum total permit fee shall be seventy-nine dollars (\$79.00) where one (1) inspection and no plan review is required, and one hundred nine dollars (\$109.00) where plan review is required. Where a minimum of two (2) inspections are required, the minimum total permit fee shall be one hundred twenty-six (\$126.00) where no plan review is required, and one hundred fifty-six dollars (\$156.00) where plan review is required. The inspection portion of these minimum fees applies to the building inspection by the building inspection discipline. On multiple-family and other integrated building permits, a forty-seven dollar (\$47.00) inspection fee shall be applied for each additional required inspection by other inspection disciplines. These fees shall be applied on a per dwelling unit basis unless the applicant submits a schedule in advance whereby up to 4 dwelling units can be inspected at the same time as one inspection.

A forty-seven dollar (\$47.00) fee shall apply for each additional inspection required including inspections for compliance with approved development or site plans and for each extra inspection. Additional or extra inspections that require more than one (1) hour, including travel time, shall be charged an additional twenty-four dollars (\$24.00) for each additional one-half (1/2) hour or fraction thereof.

1100.060 Residential Construction Permit Fees. - The fee for a building permit and inspections of residential construction, of new structures, alterations and additions to one- and two-family residential structures, multiple single-family townhouse structures, residential swimming pools and all other miscellaneous residential construction, shall be determined by applying fee rates in Table 1100.060 to the total estimated cost of construction as determined heretofore. Permit processing, plan review and inspection charges are included in the fee rate. The fee for multiple-family residential structures shall be determined under Section 1100.050.

The Code Official is authorized to accept a bona fide cost amount of subcontract for each specialized trade or discipline of construction.

The minimum total permit fee shall be seventy-nine dollars (\$79.00) where one (1) inspection and no plan review is required, and one hundred nine dollars (\$109.00) where plan review is required. Where a minimum of two (2) inspections are required, the minimum total

permit fee shall be one hundred twenty-six (\$126.00) where no plan review is required, and one hundred fifty-six dollars (\$156.00) where plan review is required.

A forty-seven dollar (\$47.00) fee shall apply for each additional inspection required including inspections for compliance with approved development or site plans and for each extra inspection. Additional or extra inspections that require more than one (1) hour, including travel time, shall be charged an additional twenty-four dollars (\$24.00) for each additional one-half (1/2) hour or fraction thereof.

The standard permit processing fee, plan review fee and inspection fee are all included in the total fee shown. Fees for any additional or extra inspections that may be required are not shown here and shall be added to the total permit fee at the rate of forty-seven dollar (\$47.00) for each inspection. Additional or extra inspections that require more than one (1) hour, including travel time, shall be charged an additional twenty-four dollars (\$24.00) for each additional one-half (1/2) hour or fraction thereof.

TABLE 1100.060 Inclusion: A building permit and inspection fee for residential construction, with a total estimated cost of construction in excess of six hundred and eighty thousand dollars (\$680,000.00) shall be computed at the rate of three dollars and ninety-three cents (\$3.93) per thousand dollars of the total estimated cost of construction.

1100.090 Pier Permit Fees. - Residential projects constructed with piers shall be charged pier inspection fees at the rate of forty-seven dollars (\$47.00) for each ten (10) piers or fraction thereof. Commercial and industrial projects constructed with piers shall be charged pier inspection fees at the rate of forty-seven dollars (\$47.00) for each five (5) piers or fraction thereof. The minimum permit fee shall be one hundred and nine dollars (\$109.00) which includes permit processing, plan review and the cost of one inspection.

A forty-seven dollar (\$47.00) fee shall apply for each additional inspection required including inspections for compliance with approved development or site plans and for each extra inspection.

Additional or extra inspections that require more than one (1) hour, including travel time, shall be charged an additional twenty-four dollars (\$24.00) for each additional one-half (1/2) hour or fraction thereof.

1100.100 Fire District Building and Fire Permit Fees. - (Reference Building Code Section 1115.050). Fire protection district building permit fees for those fire protection districts under contract for building code enforcement with St. Louis County are included with the St. Louis County building permit fee provided no additional building code enforcement services are requested. The fee for additional building code enforcement services shall be based on a plan review rate of thirty dollars (\$30.00) for each half-hour of plan review time plus forty-seven dollars (\$47.00) for each additional required inspection.

Fire protection district fire permit fees for those fire protection districts under contract for fire code enforcement with St. Louis County shall be based on a plan review rate of thirty dollars (\$30.00) for each half-hour of plan review time plus forty-seven dollars (\$47.00) for each required inspection except the Code Official may use the fees as set out in Sections 1100.050, 1100.060, 1100.140, 1100.190, and 1100.200 when in the opinion of the Code Official the fees resulting from these sections more closely equates to the plan review and inspection costs associated with such fire permit. A processing fee of thirty two dollars (\$32.00) shall be charged for each fire permit processed.

1100.110 Parking Lot Permit Fees. - Parking lot permits shall be charged a fee of one hundred and nine dollars (\$109.00), which will cover permit processing, plan review and the cost of one inspection connected with the finish grading, paving, and striping layout to be performed in the project. Parking lots having more than twenty (20) spaces shall be charged an additional inspection fee for each twenty (20) spaces or portion thereof. A forty-seven dollars (\$47.00) fee shall be charged for each additional inspection required.

1100.120 Sign Permit Fees. - The fees for sign permits for each ground sign, post sign, roof sign, wall sign, or marquee sign shall be as follows:

One hundred fifty-six dollars (\$156.00) for each sign up to one hundred (100) square feet in size, except for wall and marquee signs fifty (50) square feet or less in size located less than ten (10) feet above the walking surface or adjacent grade below. This includes standard processing, plan review and two (2) inspections. One hundred nine dollars (\$109.00) for each wall or marquee sign up to fifty (50) square feet in size located less than ten feet above the walking surface or adjacent grade below. This includes standard processing, plan review and one inspection.

Two hundred fifteen dollars (\$215.00) for each sign more than one hundred (100) square feet in size. This includes standard processing, plan review and two inspections. 8Additional anticipated inspection

due to complexity of structure shall be charged at the rate of forty seven dollars (\$47.00) per inspection. Additional or extra inspections that require more than one hour, including travel time, shall be charged an additional twenty four dollars (\$24.00 for each additional one-half ½ hour or fraction thereof.

NOTE: All signs on one lot not exceeding in aggregate the maximum allowable size and all inspected at one time may be allowed on one permit for one fee except that a separate individual permit shall be required for each individual sign that exceeds 36 square feet in area.

1100.130 Administrative Enforcement Fees. - Fees for administrative activities necessary for the enforcement of the various codes are listed in TABLE 1100.130.
